

Amazon B2B Extension User Guide

About This Extension:

Amazon B2B extension allows merchants to resale Amazon products to end customers. It supports importing any Amazon products by asin, csv file of asins and keywords search from Amazon to your magento store.

Features:

- Import products by asin.
- Import products using csv file of asin.
- Import and update products which are only immediately available in Amazon.
- Import products using keywords (search) among Amazon categories.

Installation:

Steps to install this extension

We recommend creating a backup of your site before installing any new extension, especially if it is a live site

- Please make sure you've downloaded extension package compliant with your magento version. The Compliance information is stated in the package filename. Once you've downloaded and unzipped the archive.
- Upload the contents of the module package to the **Magento root folder**. This will not overwrite the existing Magento folders or files, only the new contents will be added.

Magento root folder directory structure looks like, <http://www.techflirt.com/tutorials/magento-tutorial/magento-directory-structure-files.html>

- After uploading is done, Log in your Magento administration panel to refresh cache by way go to **System > Cache Management**. Select all caches and take action "**Refresh**" then submit.

- You can check whether the module is enabled or not in Admin area. Go to **System > Configuration**, under configuration select “Advanced” >If the Module is Enabled You can see option “Enable” for “Mg_amazonaffiliate”.

UnInstallation:

In Admin area, go to **System > Configuration**, under Configuration select “Advanced” >Click on Disable Modules Output and select “Disable” for “Mg_amazonaffiliate” and click **Save Config** button
Clear the store cache under **System > Cache Management**.
