

Fulfillment by Amazon (FBA) Extension User Guide

About This Extension:

With Fulfillment by Amazon extension, you can send all shipping information to Amazon automatically by FBA. When customers place orders, Amazon takes care of shipping the products to your buyers. Our extension does the automation of such order passing process.

Features:

- To specify which individual products are fulfilled by Amazon.
- To choose where the stock value is managed within Magento or Amazon.
- Ability to specify Amazon marketplace (UK, IN, DE, CN, CA, FR, ES, JP).
- To specify as many pricing rules as needed for each of those shipping types (Standard Shipping, Expedited Shipping, and Priority Shipping).

Installation:

Steps to install this extension

We recommend creating a backup of your site before installing any new extension, especially if it is a live site

- Please make sure you've downloaded extension package compliant with your magento version. The Compliance information is stated in the package filename. Once you've downloaded and unzipped the archive.
- Upload the contents of the module package to the **Magento root folder**. This will not overwrite the existing Magento folders or files, only the new contents will be added.

Magento root folder directory structure looks like, <http://www.techflirt.com/tutorials/magento-tutorial/magento-directory-structure-files.html>

- After uploading is done, Log in your Magento administration panel to refresh cache by way go to **System > Cache Management**. Select all caches and take action “**Refresh**” then submit.
- You can check whether the module is enabled or not in Admin area. Go to **System > Configuration**, under configuration select “**Advanced**” >If the Module is Enabled You can see option “Enable” for “Mg_Amazonfba” .

UnInstallation:

In Admin area, go to **System > Configuration**, under Configuration select “**Advanced**” >Click on Disable Modules Output and select “Disable” for “Mg_Amazonfba” and click **Save Config** button Clear the store cache under **System > Cache Management**.
