

User Guide

Select Promotions tab in the admin and click shipping rule.

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes 'Dashboard', 'Sales', 'Catalog', 'Mobile', 'Customers', 'Promotions', 'Newsletter', 'CMS', 'Brand', 'Reports', and 'System'. The 'Promotions' tab is selected. Below the navigation bar, there are two messages: 'Latest Message: Reminder: Change Magento's default phone numbers and callouts before site launch' and 'One or more of the Indexes are not up to date: Product Attributes, Aggregation Data. Click here to go to [Index Management](#) and rebuild required indexes.' The main content area is titled 'Shipping prices - Local fee' and contains a table with one row: '10 test rule'. A callout box points to the 'Shipping rule' link in the top navigation bar, and another callout box points to the 'Add New Price Rule' button. The table has columns for 'ID', 'Rule Name', 'Date Start', 'Date Expire', 'Status', and 'Priority'.

Add new price rule on clicking "Add New Price Rule" button for applying promotions to shipping rule.

Fill the required field for rule information provided in the "Rule Information tab".

The screenshot shows the 'Add Rule' form in the Magento Admin Panel. The form is titled 'Shipping Rule' and has an 'Add Rule' button. The 'Rule Information' tab is selected, and the 'General information' section is visible. The form fields are: 'Rule Name' (text input), 'Description' (text area), 'Status' (dropdown menu set to 'Enabled'), and 'Store View' (checkbox list). The 'Store View' list includes 'All Store Views', 'Main Website', 'Main Store', 'English', 'French', and 'German'. A callout box points to the 'Rule Information' tab. The form also has 'Back', 'Reset', and 'Save' buttons.

On selecting the storeview, the rule will be applied only to the selected stores.

Select the conditions tab and write the conditions to be applied for the rule

The screenshot shows the 'Add Rule' page in the Magento Admin Panel. The 'Conditions' tab is selected, and a dropdown menu is open, showing a list of conditions. The 'Distance' condition is highlighted. The page also shows a 'Shipping Rule' sidebar with 'Rule Information', 'Conditions', and 'Actions' tabs. A yellow callout box points to the 'Conditions' tab with the text 'Click this tab for Conditions'. The main content area has a header 'Add Rule' and a sub-header 'only if the following conditions are met (leave blank for all products)'. Below this, there is a section 'If ALL of these conditions are TRUE:' with a dropdown menu that is open, showing a list of conditions including 'Distance'.

The new feature that is used to apply the condition is based on the distance between the shipping address and the product location. To apply this condition the product location should be entered using the Location tab in manage products.

Catalog->Manage products and edit the product to add the location using "location tab". To save location just click on the location in the map and save product.

And again in the conditions tab select distance attribute with required condition.

In the action tab, select the required field whether to add shipping amount based on the percent or fixed price.

The screenshot shows the 'Add Rule' page in the Magento Admin Panel. The 'Actions' tab is selected, and the 'Amount To be Added' field is set to 'To Fixed Amount'. The page also shows a 'Shipping Rule' sidebar with 'Rule Information', 'Conditions', and 'Actions' tabs. A yellow callout box points to the 'Actions' tab with the text 'Click this tab for Actions'. The main content area has a header 'Add Rule' and a sub-header 'Update prices using the following information'. Below this, there is a section 'Apply the rule only to cart items matching the following conditions (leave blank for all items)'. Below this, there is a section 'If ALL of these conditions are TRUE:' with a dropdown menu that is open, showing a list of conditions including 'Distance'.

And save the rule .

While checking out the order, the calculated shipping amount is displayed in the shipping and handling column.

The screenshot shows a Magento checkout page. At the top, there is a search bar and navigation links. The main content area is titled "Checkout" and includes a progress bar with steps: 1 Checkout Method, 2 Billing Information, 3 Shipping Information, 4 Shipping Method, 5 Payment Information, and 6 Order Review (highlighted in orange). Below the progress bar is a table with columns: Product Name, Price, Qty, and Subtotal. The table contains one row for "Sony VAIO VGH-TX127NB 11.1" Notebook PC" with a price of Rs2,699.99 and a quantity of 1, resulting in a subtotal of Rs2,699.99. Below this, there is a row for "Shipping & Handling (Flat Rate - Fixed)" with a value of Rs270.00. The "Grand Total" is displayed as Rs2,969.99, which is circled in red. To the right of the table, there are sections for "YOUR CHECKOUT PROGRESS" with links to "Billing Address", "Shipping Address", "Shipping Method", and "Payment Method". Each section contains placeholder text for the respective information.

Checkout

- Checkout Method
